RED FLAG CCA EXAM PREP

Writing the Prairie and International CCA exams?

This training is for you!

Learn the information you must know to pass these exams. Stay in your office and follow the webinar presentations, ask questions and work through the practice exams. You will be working through the study guides and the CCA manuals with a heavy emphasis **on red flag concepts**. The training includes extra exercises with calculations.

Webinars are recorded and available for later review. This is the 4th time this team has presented this information.

The pass rate for the very tough CCA exam is excellent with comments from students "I would not have passed the exam if I had not taken the course."

Time	Dates	Topic		Instructor
9:00 – 11:00 am MST	Dec 15, 2020	Nutrient Management	International	Dr. Bill Hamman
	Dec 17, 2020		Prairies	Dr. Bill Hamman

	Jan 26, 2021	Final Review	International	Both
	Jan 28, 2021		Prairies	Both

INSTRUCTORS:

Dr. Bill Hamman, PAg, CCA and President of Hamman AG Research - Bill has instructed this CCA training 9 times over the last 16 years and is considered a top lecturer on the subject material. He also conducts the Alberta Pesticide Applicator Training course. He is President of Hamman AG Research based at Lethbridge, Alberta - a field research company that is well respected in the agriculture research community for fertility, weed, insect, disease, and cereal and oilseed development trials.

Therese Tompkins, BSc(Ag), CCA, AIT and Agronomist/Owner of Tompkins AgriWorks - Therese currently provides agronomic consulting to farm operations west of Edmonton, Alberta. She has her Pest Applicator certificate and is working on her PAg designation. Prior to consulting, Therese worked for our Provincial Government's Alberta Agriculture where she honed her teaching skills developing and delivering the Environmental Farm Plan Program.
